Subject: CE Marking

I.C.E.L. S.C.p.A.

declares that all its products are conform to the essential safety requirements of the Directive 2014/35/EU (also known as LVD)

All I.C.E.L. cables are conform to the European Directive 2014/35/EU and must have affixed the **CE** marking.

In compliance with such provisions of the law, I.C.E.L. places the **CE** marking on the packaging (labels) of **all its products** and if technically feasible on the product itself.

The **CE** conformity Declaration does not follow the electrical materials as this obligation doesn't subsist.

For each product, I.C.E.L. keeps at disposal of the National Authorities all the documentation concerning the **CE** marking, for inspection purposes.
